Technical Descriptions / Applications

Offering full-service support to our customers - instead of being just a supplier of a small article within the complex structure of your building - this is our commitment today.

This is based on continuous research and further development of our products. Accordingly, customized applications can be developed and tested.

EverGlow HI 150 is only one example of increased safety.

The Basis Materials for all EverGlow® Products

Film, self-adhesive

High-quality self-adhesive film, 0.1 mm thick, photoluminescent coated

Luminance HI 150
Material code 38.

Aluminum

Depending on the product 0.2 mm; 0.56 or 1.5 mm thick, photoluminescent coated, partly self-adhesive.

Luminance HI 150
Material code 15.
Luminance HI 300
Material code 17.

Acrylic film

Tamper resistant, photoluminescent coated, protected against vandalism, self-adhesive, equipped according to your choice.

Luminance HI 150
Material Code 59.

Special Applications

On request, special products made of:

- Stainless steel
- Glass
- Ceramics
- E Quality for outdoor use

Luminance HI 150 to HI 1000

EverGlow® TL (Triple Loading)

Photoluminescent products with turbo loading effect. Ideal for applications in areas with poor light conditions or short loading time. You recognize EverGlow TL products by the additional specification TL. preceding the article number, e.g.

TL17.7540 (see also page 13)

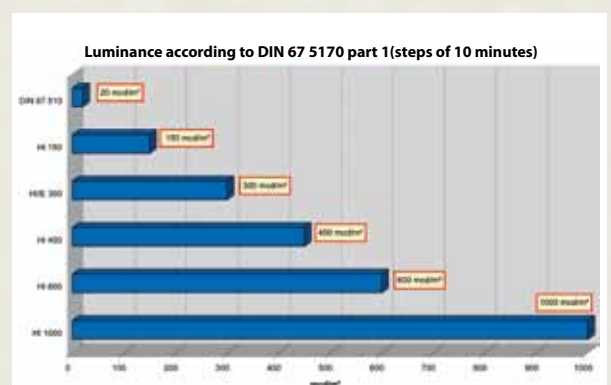

EverGlow® C (Color)

The combination of daylight fluorescence and photoluminescence is a perfect synthesis for safety markings of utmost quality. You recognize EverGlow C products by the additional specification C. preceding the article number, e.g. C15.7501

(see also page 18)

| Luminance: | after 10 minutes | after 60 minutes | Decay Time |
|------------|-------------------------|------------------------|--------------|
| HI 150 | 150 mcd/m ² | 22 mcd/m ² | 2100 minutes |
| HI 300 | 300 mcd/m ² | 45 mcd/m ² | 4100 minutes |
| HI 450 | 450 mcd/m ² | 70 mcd/m ² | 4500 minutes |
| HI 600 | 600 mcd/m ² | 100 mcd/m ² | 8100 minutes |
| HI 1000 | 1010 mcd/m ² | 185 mcd/m ² | 6 days |

Reprint, reproduction and adoption of contents of the catalogue in eCommerce platforms - also in excerpts - are not permitted.

We expressly reserve the right to modification of the contents and products throughout the term of this catalogue.

15th edition, as of: February 2012, fee: Euro 2,00

Where safety-relevant products are intended to provide utmost planning reliability, product certifications are essential.

When using EverGlow products, our customers can always be sure of meeting the legislator's requirements.

In order to be up-to-date at any time, we participate in all relevant standardization committees.

UL Listed

Intertek

Thanks to our membership in the PSPA (Photoluminescent Safety Products Association) we have been intensifying use of photoluminescent products on shore, at sea, and in the air for several years in conjunction with other international manufacturers.

Environmental Protection:

EverGlow is green! This statement has a double meaning. On the one hand, our products mostly shine green in the darkness, on the other hand, the certification of our production according to ISO 9001 and ISO 14001 provides for compliance with all environmental criteria.

REACH:

EverGlow products meet the REACH criteria and do not contain any SOVC (Substances of Very High Concern). Where possible, we use recycled materials (such as aluminum).

Moreover, no additional power supply is required when using EverGlow products.

EverGlow® Luminance values

| 25,0 x 25,0 | 25 |

What is a Safety Guidance System?

A safety guidance system aims at guiding persons out of the building as fast and safely as possible. A photoluminescent safety guidance system enhances the escape speed and orientation. It thereby ensures safe and fast escape from the dangerous area (e.g. in case of smoke development).

This objective of protection can be realized in a profitable way by means of the photoluminescent safety guidance system. It includes photoluminescent guidance strips, signs and markings. The luminous pigments are excited by daylight or the general lighting and release the stored energy in the darkness as greenish yellow light.

In case of a photoluminescent safety guidance system near the floor, the shortest escape route out of the building is marked clearly and continuously (instructions in this respect can be found in ISO 16069). These guidance strips are complemented by signs according to ISO 7010 which are fastened at face level. Obstacles in the escape route such as protruding edges or steps are to be marked, too.

This, all possible obstacles in the escape route are clearly visible and do no longer present a danger. In case of power failure, the information required at this moment is given by the guidance strips. As this marking is mainly fastened near the floor, it is also still visible in case of smoke development.

By dividing the flow of persons evenly, the main escape routes are relieved, as fleeing people almost always want to take the same way out of the building as in. The fleeing person has the comforting feeling of being guided out the building as quickly as possible and is thereby relieved psychically.

On shore, at sea, and in the air.

Optical safety guidance systems on shore, at sea, and in the air (aircrafts) entail highest demands on design and functionality. At the same time, the lighting conditions on the spot require a photoluminescent product which is convincing regarding its luminance and loading speed and satisfies the legal requirements (ASR, IMO, FAA) at the place of use at any time.

Guidance Systems

Components:

| | | Order No. |
|-----------------------|---|------------|
| Basic profile | Aluminum, height: 41.5 mm, length: 3000 mm colors: anodized-aluminum*, honey-bronze*, mid-bronze* (* Please indicate the color in your order) | 90.7754 |
| Guidance strip flex 1 | EVERGLOW HI 300 Alu, 0.2 mm thick, photoluminescent coating, with glass bead surface finish, self-adhesive, height: 37 mm, length: 1000 mm. | 17.7730 |
| or | | |
| Guidance strip flex 1 | EVERGLOW TL 300 Alu | TL17.7730 |
| | EVERGLOW HI 450 Alu | on request |
| | EVERGLOW HI 300 Alu, with print "EXIT", right | 17.7755 |
| | EVERGLOW HI 300 Alu, with print "EXIT", left | 17.7756 |
| Cover plate | Plastic, light** (** Other colors available on request. / *** Minimum quantity 12 m) | 90.7757 |

Way-guidance marking

For adhesion to profile upper part, aluminum, 0.2mm thick, photoluminescent/green coated, with glass bead surface finish, Alu Hi 300, self-adhesive.

1 set = 10 pieces

| | Size W x H in cm | Material | Order No. |
|------------------------------|---------------------|------------|-----------|
| Escape route right | 3.7 x 3.7 | Alu TL 300 | TL17.7751 |
| Escape route left | 3.7 x 3.7 | Alu TL 300 | TL17.7752 |
| Arrows sign photoluminescent | 3.7 x 3.7 | Alu TL 300 | TL17.7753 |

ProFil 50:

The new profile system for low-location safety guidance systems according to national and international regulations convinces by its design and functionality.

Your Benefit:

According to a revised national regulation, the strip width can be reduced significantly. This reduced profile width of 50 mm allows for convenient integration in the design of your building.

A well-planned angle of the profile ensures optimized charge through ambient light.

Easy installation:

The concealed fixing of screws, rivets and partial bonding allows optimized installation times.

The well-designed cover plates provide a neat edge.

* Minimum quantity: 12 m

| Components: | | Order No. |
|--------------------------------|---|----------------------|
| Basic profile: | Aluminum anodized, silver, height: 54.0 mm, length: 3000.0 mm (other lengths available at extra cost) | 90.7732 |

| | Alu TL 300 | TL17.7699 |

Do you know where the next escape route is?

In emergencies, every second counts.

Until arrival of the emergency services, all people have to be evacuated.

The work protection regulations, such as ASR A 3.4/3, may go beyond the requirements according to building law significantly.

A risk analysis may provide information in this respect.

For further information on the execution of a risk analysis, please refer to www.everglow.de.

There are different standards regarding the design of photoluminescent safety way guidance systems which are included in the planning and installation of safety way guidance systems as technical rules. In particular, DIN 67510 Part 3 describes the German state of the art regarding safety way guidance systems. On the international level, the standard ISO 16069 further specifies electrical safety way guidance systems.

In order to evaluate the products regarding their lighting suitability, the standard ISO 17398 further requires the manufacturer to provide additional information on the luminance for specified excitation scenarios.

- a) Excitation with standard illuminant D65 for 20 minutes at 200 lux
- b) Excitation with fluorescent lamp (4,300 K) for 15 minutes at 50 lux
- b) Excitation with fluorescent lamp (3,000 K) for 15 minutes at 25 lux

EverGlow values for scenario a)

| | Luminance in mcd/m ² | | | |
|--------|---------------------------------|--------|--------|--------|
| | 2 Min | 10 Min | 30 Min | 60 Min |
| HI 150 | 635,0 | 161,9 | 52,4 | 24,2 |
| HI 300 | 1156,0 | 304,0 | 103,9 | 48,2 |
| TL 300 | 1411,0 | 319,0 | 98,2 | 43,5 |

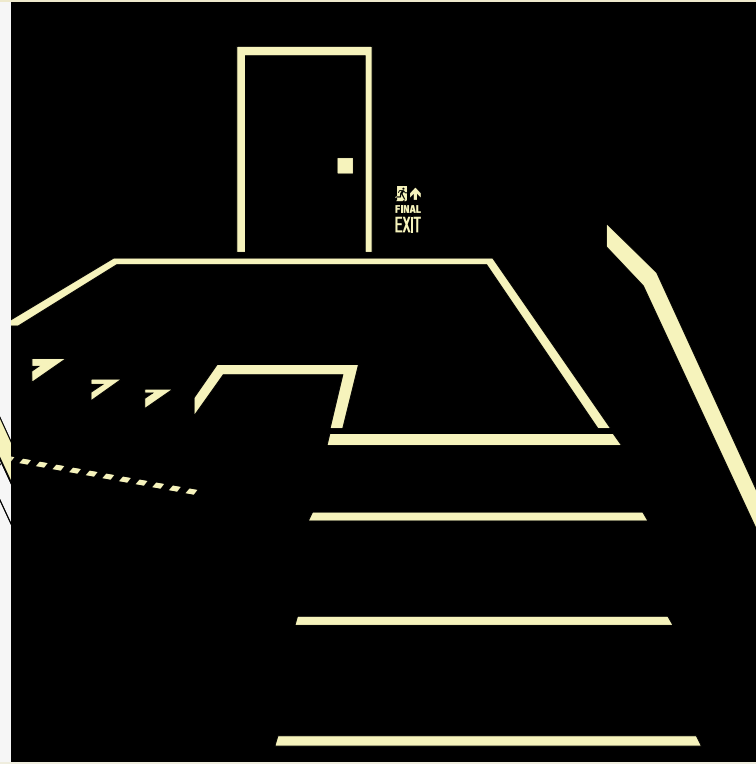

EverGlow values for scenario b)

ISO 16069

Wall-mounted handrails shall be highlighted with phosphorescent material. Each tread edge shall be marked with stair nosing of not less than 20 mm strips.

SafetyWalk non-slip stripes

self-adhesive, ideal for marking steps and floors

photoluminescent

photoluminescent/black

| Size W x H in cm | Material | Order No. |
|---------------------|------------|-----------|
| 80.0 x 3.0 | Alu HI 150 | 15.7501 |
| 80.0 x 5.0 | Alu HI 150 | 15.7504 |
| 80.0 x 3.0 | Alu HI 150 | 15.7507 |
| 80.0 x 5.0 | Alu HI 150 | 15.7510 |

Marking roll for handrail

photoluminescent-coated film, ca. 2.4 cm width, self-adhesive, photoluminescent area 12.0 x 1.4 cm, border 1.0 cm

Roll with 10 m

| Size W x H in cm | Material | Order No. |
|---------------------|-------------|-----------|
| 1000.0 x 2.4 | Film HI 150 | 38.7446 |

Step edge profile

Aluminium 2,0 mm self adhesive photoluminescent

Anti/slip effect R10 /DIN 51130

The profile is excellently suited for marking steps in industrial settings and can be mounted by adhesive or screws/rivets.

| Size W x H x D in cm | Material | Order No. |
|-------------------------|------------|-----------|
| 100.0 x 3.0 x 6.0 | Alu HI 300 | 17.7657D |

Stair marker

photoluminescent, angled at 90°. Profile length 20.0 cm

with foam adhesive backing

| Size W x H x D in cm | Material | Order No. |
|-------------------------|------------|-----------|
| 5.0 x 3.8 x 20.0 | Alu HI 300 | 17.7490 |

Stair Marker

with directional arrow, angled at 90°, self-adhesive

| Size: W x H in cm | Material | Order No. |
|--------------------|------------|------------|
| 4.0 x 3.0 x 18.0 | Alu HI 300 | 17.US7490D |
| Arrow downstairs | Alu HI 300 | 17.US7490U |
| Arrow upstairs | Alu HI 300 | 17.US7490U |
| Regular (no arrow) | Alu HI 300 | 17.US7490 |

L-shape stepmarkers,

alu 0,2 mm, self-adhesive, anti-slip effect

| Size: W x H in cm | Material | Order No. |
|-------------------|------------|------------|
| a) 7,5 x 22,5 | Alu HI 150 | 15.US3090R |
| b) 7,5 x 22,5 | Alu HI 150 | 15.US3090L |

ISO 16069

Any door handles or opening devices on emergency exit doors shall be highlighted with phosphorescent material.

The door handle side of the frame shall have a continuous marking from the floor up to the height of the door handle.

Door handles background
green/photoluminescent, self-adhesive
for door handle
(right turn)

A

for door handle
(left turn)

B

| Size W x H in cm | Material | Order No. |
|---------------------|------------|------------------|
| 10,0 x 25,5 | Alu HI 150 | 15.7535 |
| | Alu TL 300 | TL17.7535 |
| 10,0 x 25,5 | Alu HI 150 | 15.7540 |
| | Alu TL 300 | TL17.7540 |

The door handle or the door handle background is to be in photoluminescent design.

Door handle marker

Increase the speed of egress by marking the door handle with symbol, location and direction of moving

| | Size W x H in cm | Material | Order No. |
|--------------------|---------------------|------------|--------------------|
| Arrow left | 10,0 x 20,0 | Alu TL 150 | 15.US7540TL |
| Arrow right | 10,0 x 20,0 | Alu TL 150 | 15.US7535TL |

ISO 16069

The final emergency exit door and emergency exit doors provided within the escape route shall have frames marked with strips of phosphorescent material of not less than 25 mm in width. Where observation distances are greater than 20 m the whole door frame should be outlined with phosphorescent material.

Door marking roll

photoluminescent/white, self-adhesive

| Size B x H in cm | Material | Order No. |
|---------------------|----------|----------------|
| 1200,0 x 3,0 | Folie HI | 38.7450 |

EverGlow® C 150

C means Color and 150 corresponds to the proven HI 150 quality 150 mcd/m² after 10 minutes with a decay time of 35 hours.

Daylight fluorescent and photoluminescent. The combination of these two materials results in a perfect compound featuring two advantages: High signaling effect during the day and at night in order to make danger spots such as breaks of wall or columns clearly visible.

Incident light excites fluorescent materials whereby light waves of the same length or longer waves are emitted – contrary to phosphorescent materials which phosphoresce after incident light radiation. Fluorescent materials require light to develop their signaling effect while phosphorescent materials glow in the dark when the light is off.

Warning profile

angled at 90 °, each side 3 cm warning marking, incl. glass bead coating. EverGlow warning profile is excellently suited for marking edges, corners and obstacles.

Triple Loading: **EVERGLOW[®] TL** More Visibility = More Safety

We have been using the EverGlow TL quality successfully in the project business for years. A new generation of pigments and a novel pigment layer coating combine the high luminance of our HI 300 products with an up to threefold faster loading time.

Thus, TL 300 products are ideal for areas with poor light conditions or short activation periods (e.g. tunnels, staircases, underground car parks and areas with time switch).

At the request of our customers, we also offer the up-to-date escape route markings and fire equipment signs in this premium quality now.

Photoluminescent Coating Systems for Safety Way Guidance Systems according to ISO 16069.

Where highest toughness and abrasion resistance of floor markings is required, our coating systems provide the perfect solution.

We use highly intensive luminescent pigments which load quickly and also feature an extremely long decay time. Whether traffic by fork lift trucks or soiling by chemicals, we offer the appropriate color system for each ground and intended use.

System F is a solvent-free 2-component epoxy resin system which is recommended for surface marking and lines. In order to increase the shelf life, the luminescent pigment is supplied in a separate container. The material can be roll-coated or flat-coated. We recommend a white primer for utmost luminance. The average drying time amounts to about 8 h.

| Designation | **Luminance after 10 /60 Min. | Consumption g/m ² | Order No. |
|---------------------|-------------------------------|------------------------------|-----------------|
| F 150 | 150 / 20 | app. 1000 | 90.3033* |
| F 200 | 200 / 28 | app. 1000 | 90.7667* |
| F 300 | 300 / 35 | app. 1000 | 90.3034* |
| Reflex Weiss EPOXID | | app. 250 | 90.7665* |
| Thinner Cleaner | 0.5 Liter | | 90.3035 |

Bundle sizes 1kg/2.5 kg/5 kg. We recommend white primer for optimum luminance.

System G is a solvent-free 2-component epoxy resin system which is recommended for selective markings using arrows or points. It is applied by means of a spatula and stencil. 3 arrows per meter (max. distance 35 cm) are recommended as continuous guidance marking. In order to increase the shelf life, the luminescent pigment is supplied in a separate container. The average drying time amounts to about 8 h. 40-60 arrows can be applied with 1 kg.

| Designation | **Luminance after 10 /60 Min. | Consumption g/m ² | Order No. |
|---------------------|-------------------------------|------------------------------|-----------------|
| G 150 | 150 / 20 | app. 1000 | 90.3036* |
| G 200 | 200 / 28 | app. 1000 | 90.7669* |
| white primer EPOXID | | app. 250 | 90.7665* |
| Thinner Cleaner | 0.5 Liter | | 90.3035 |

Bundle sizes 1kg/2.5 kg/5 kg. We recommend white primer for optimum luminance.

1-component dispersion paint system

For marking hand-rails, walls or fittings
(not passable)

| Designation | **Luminance after 10/60 min | Features | Order No. |
|---|-----------------------------|---|-----------------|
| white primer | 100 / 15 | highly opaque, low-odor, solvent-free, water based, resistant to abrasion | 90.0145* |
| Dispersion, photoluminescent (2-3 coatings) | 100 / 15 | ready to paint, solvent-free, water based | 90.0146* |
| Protective coating against abrasion | 100 / 15 | ready to paint, transparent, solvent-free, water based | 90.0147* |

Bundle sizes 1 kg/2.5 kg

Stencils with stripping face: Photoluminescent floor marking arrows can directly be applied to the floor.

Especially suitable for floors open to traffic.

Arrow stencil made of aluminum for markings

Aluminum stencils are perfectly suitable for photoluminescent floor markings. The low weight and recessed grip permit quick and clean working.
Note: Other designs and sizes available on request. The aluminum stencils are easy to clean, e.g. by using the thinner on page 20.

Novelty:

**Photoluminescent coating system
in cartridge.**

Particularly suitable for untrained users; horizontal and vertical use.

**2-component system,
clean and quick**

- Quality with high intensity
- (> 300 mcd/m² after 10 minutes)
- Indoor and outdoor use
- Horizontal and vertical use
- No creeping
- Dries within 8 hours / extremely resistant
- No solvents or odors
- Reusable cartridge / no loss of product*

* When reusing the cartridge, take a new mixing tip

Step 1: Application of installation film

Part No.: 90.7703D50

Step 2: Application of luminous material

Step 3: Smoothing using spatula

Part No.: 90.3041

Step 4: Removing installation film

after about 10 minutes
allow to dry for 8 hours

For escape route marking to be laminated, refer to Page 9

ISO 16069

Phosphorescent signs providing information such as actions to be followed in case for emergency, plans of the escape route, mandatory notices and instructions may be provided to offer further visual information and light sources in dark surroundings.

The size of the sign depends on the distance required of viewing the sign and can be determined according to the following table in order to achieve good visibility:

| Side-length | Max. viewing distance in bright surroundings |
|-------------|--|
| b x a in cm | in meter |
| 10.0 x 10.0 | 10 |
| 20.0 x 10.0 | 10 |
| 15.0 x 15.0 | 15 |
| 30.0 x 15.0 | 15 |
| 20.0 x 20.0 | 20 |
| 40.0 x 20.0 | 20 |
| 25.0 x 25.0 | 25 |

New signs according to DIN EN ISO 7010

ISO 7010 is the internationally approved compilation of Safety Signs and the basic standard for signs national legislations.

We are permanently extending our standard product range with the new symbols. For the time being we offer the new signs produced in a digital printing process on a phosphorescent HI 150 (class C) material.

Substrates:

Film HI 150
Aluminium HI 150

ISO 7010-E007 Evacuation assembly point

Dimensions:
150 x 150 mm
200 x 200 mm
300 x 300 mm

ISO 7010-E008 Break to obtain access

ISO16069

For multi-storey stairwells, a phosphorescent sign shall be posted at each floor landing, indicating the floor number, whether re-entry is possible and if it is not, the closest floor above and below on which re-entry is possible.

| Size W x H in cm | Material | Order No |
|---------------------|-------------|------------------|
| 15,0 x 15,0 | Film HI 150 | 38.3022 * |
| 15,0 x 15,0 | Alu HI 150 | 15.3022 * |

*Please indicate the desired figure and/or letter after the article number.

e.g. **39.3022-1** or **38.3022-A** or **minus**

Design: printed or covered

The blank angled and flag signs can be covered with self-adhesive EverGlow film signs of your choice. Please also indicate the order number of the respective film sign in your order.

The prices of the blank angled/flag signs are exclusive of film signs.

On request, we deliver completely covered angled/flag signs according to your specifications. Complete solutions are available on request.

- 15.0 x 15.0
- 20.0 x 20.0
- 30.0 x 15.0
- 40.0 x 20.0

Individual Angled and Flag Signs

Design your individual angled or flag sign.

Rectangular angled sign for wall mounting

Total size W x H x D in cm:
For 30.0 x 15.0 = 46.0 x 15.0 x 20.5
For 40.0 x 20.0 = 59.5 x 20.0 x 28.0

| Size of Safety Sign | Material | Order No. |
|---------------------|----------|-----------|
| 30.0 x 15.0 | Alu | 51.9550 |
| 40.0 x 20.0 | Alu | 51.9551 |

Square angled sign for wall mounting

Total size W x H x D in cm:
For 15.0 x 15.0 = 25.7 x 15.0 x 10.5
For 20.0 x 20.0 = 35.3 x 20.0 x 14.0

| Size of Safety Sign | Material | Order No. |
|---------------------|----------|-----------|
| 15.0 x 15.0 | Alu | 51.9552 |
| 20.0 x 20.0 | Alu | 51.9553 |

Rectangular flag sign for wall mounting

Total size W x H x D in cm:
For 30.0 x 15.0 = 2.2 x 15.0 x 30.5
For 40.0 x 20.0 = 2.5 x 20.0 x 40.5

| Size of Safety Sign | Material | Order No. |
|---------------------|----------|-----------|
| 30.0 x 15.0 | Alu | 51.9560 |
| 40.0 x 20.0 | Alu | 51.9561 |

Square flag sign for wall mounting

Total size W x H x D in cm:
For 15.0 x 15.0 = 2.2 x 15.0 x 15.5
For 20.0 x 20.0 = 2.5 x 20.0 x 20.5

| Size of Safety Sign | Material | Order No. |
|---------------------|----------|-----------|
| 15.0 x 15.0 | Alu | 51.9557 |
| 20.0 x 20.0 | Alu | 51.9558 |

Rectangular flag sign for ceiling mounting

Total size W x H x D in cm:
For 30.0 x 15.0 = 30.0 x 15.5 x 2.2
For 40.0 x 20.0 = 40.0 x 20.5 x 2.5

| Size of Safety Sign | Material | No. |
|---------------------|----------|---------|
| 30.0 x 15.0 | Alu | 51.9556 |
| 40.0 x 20.0 | Alu | Order |

Square flag sign for ceiling mounting

Total size W x H x D in cm:
For 15.0 x 15.0 = 15.0 x 15.5 x 2.2
For 20.0 x 20.0 = 20.0 x 20.5 x 2.5

| Size of Safety Sign | Material | Order No. |
|---------------------|----------|-----------|
| 15.0 x 15.0 | Alu | 51.9563 |
| 20.0 x 20.0 | Alu | 51.9564 |
